Contents:

Map Algebra

Image Classification

Change Analysis

---

## Registration

Please fill up the entry form at least two days prior to the session date.

URL: <https://forms.gle/s6y1Dek6PgLyVHS38>

## Important notices

QGIS is a freeware GIS available for both Windows and Macintosh platforms.

Please install QGIS version 3.10 before the session starts. Due to the time constraints, we will not be able to support the installation process. We strongly recommend you to install version 3.10. UI and bugs may differ if you use a different version.

Please note that we may not be able to answer to all questions from the participants due to the time constraints as well as technical limitations. In particular, we cannot guarantee to answer to questions regarding versions of QGIS other than 3.10 and Macintosh versions of QGIS.
